Chaoran Zhou is a Chinese-born artist and independent software developer currently pursuing a Bachelor of Fine Arts of Drawing and Painting at OCAD University in Toronto. Specializing in both conceptual installations and paintings with diverse visual expressions that connect audiences to thought-provoking concepts, and conveying a poetic visual experience. As a start-up developer, Chaoran's software was designed with the initial intention of exploring the form of an online-to-offline collaborative community platform. He is also exploring artificial intelligence technologies
